### FREQUENTLY ASKED QUESTIONS

1. *How do I submit a cross-listed ("same-as") course to C-ID?*

You would submit a cross-listed course as if you were doing a brand new submission to C-ID. We are currently working on a technological enhancement that would allow cross-listed courses to be linked together in C-ID. For now, please submit cross-listed courses separately for the C-ID designation.

2. *How do I submit multiple courses against a C-ID descriptor when the courses are not required in combination?*

You must submit each course separately all the way through the process. Similarly to cross-listed CORs, you will get a "multiple course alert" after you submit the regular course. You will simply indicate you already submitted a regular course and now seek C-ID designation for your honors course. The steps are then the same. *For multiple COR submissions (for example, a lecture + lab), you will proceed with the regular submission, and then click the "Add another course" button at the bottom of the page so that both CORs are linked to one submission.*

3. *How do I change information on my COR submission after I completed submitting?*

You can change the institution course name and number, title, units, and effective date after you have completed submitting your COR by clicking on the "edit" link under Articulation Details. Once there, you can change the information listed above.
