**ANNOUNCEMENTS:**

**C-ID AO Subgroup & monthly Q&A with members:**

The C-ID AO Subgroup was formed in order to assist in the work of C-ID and to support the Articulation Officer community. This subgroup has scheduled weekly meetings to discuss current issues and to provide guidance about future and on-going C-ID processes. In addition to providing guidance in the development of the 5-year descriptor review process, the appeal process for challenging course determinations, and improvements to C-ID technology, the group also reports back on activities to their regional meetings, and brings any topics of concern back for discussion.

We always welcome any questions or concerns the AO community may have. Beginning in April, we would like to provide the opportunity for a **Q&A on the last Wednesday of each month with the subgroup**. Please watch for call-in information via the C-ID newsletter listserv and send your questions to [aohotline@c-id.net](mailto:aohotline@c-id.net).

**C-ID Advisory Committee**

The C-ID Advisory Committee is comprised of faculty, articulation officers, and system office representatives from the CCC, CSU, and UC. Although currently vacant, a representative from the AICCU is also a designated member. The Advisory Committee, with counsel from the AO Subgroup, determines policies for C-ID. This group works in collaboration with the Intersegmental Curriculum Workgroup (ICW) on efforts related to SB 1440 and TMCs. The full list of the C-ID Advisory Committee, as well as policy documents can be found on the C-ID website:

**C-ID Advisory Committee—update from last meeting:**

The C-ID Advisory Committee met in late February and discussed the following topics:

1. *Course content in excess of the descriptor requirement:* The committee confirmed that it is acceptable for a COR to have more than what the descriptor calls for, but the COR must ensure appropriate coverage of the descriptor's content and objectives. Language will be added to policy documents indicating the need to ensure that the content and objectives of the descriptor are adequately addressed.
2. *Appeals process:* The Advisory Committee reviewed the appeals process and proposed slight modifications to the language. It is anticipated that this document will be finalized at the April C-ID Advisory Committee meeting.

**ICW Group—update from last meeting:**

ICW has approved exploring Ethnic Studies and Global Studies/International Relations as potential "area of emphasis" TMCs. *More information to come in the near future.*

A non-substantive change to the Chemistry TMC was approved—the addition of the MATH 900s descriptor as an option. The updated Chemistry TMC is posted on the C-ID website.

**DISCIPLINE STATUS REPORT:**

**Engineering**

The draft survey for the Engineering model curriculum (MC) along with two descriptors, are up for vetting. Although not a TMC, this MC was developed intersegmentally. Please encourage your faculty to leave feedback by May 5, 2014:
